

I respectfully urge the FCC to reject the NAB's petition 04-160.
I use the traffic and weather channel whenever there is a slowdown in traffic.
In Houston this is the norm rather than the exception. I really appreciate not
to have to wait for the commercial break that is used to update traffic on
broadcast radio.

We haven't had a 'good' hurricane in a few years and I am looking forward to
hearing the weather coverage when that happens.

Thank You
